Endotracheal Intubation (*3 after PALS/NRP course for appropriate emergent indications)	1*	2*	3
Suprapubic bladder tap (*3 after certification)	2*	2*	2*
Circumcision (*3 after certification process complete – see online)	2*	3	3
Bone marrow aspiration	1	1	1
Chest tube placement (*3 for appropriate emergent indications or certified)	1	2*	2*
Code Blue Infant/Child (*3 after PALS/NRP course for appropriate emergent indications)	1*	3	3
Thoracentesis	1	1	1
Paracentesis	1	1	1
Lumbar puncture (*3 if certified – see online)	2*	3	3
Central line placement (*3 if certified – see online)	1	2	2*
Conscious Sedation (*3 after certification process complete – see online)	1	2*	3
Physical exam	3	3	3
Patient Hospital discharge	2	2	2
CT/MR scan order	2	2	2
Consulting specialist	2	3	3
Discharge medications (*meds co-signed)	2*	3	3
Evaluation of chest X-ray	2	2	2

These aspects of supervision are in addition to those specified in the individual residency program statement, the Professional Staff Rules and Regulations, and other applicable policies. The above is not designed to be an exhaustive list of all procedures performed by residents in this program. Procedures which are similar but not identical to those listed may be performed with the level of supervision specified for the like procedure.

with level 2 or 3.
